

# PANORAMA

SOLUTIONS FOR A HEALTHY PLANET

## PANORAMA – USING SOLUTIONS TO SHARE KNOWLEDGE AND CREATE EVIDENCE-BASED INNOVATION

Let's not keep reinventing the wheel but learn from each other's successes in the management and governance of biodiversity and natural resources!

This side event is organized by the hosts of the three thematic areas of the PANORAMA partnership: the Blue Solutions Initiative, implemented by GIZ, IUCN, GRID-Arendal & UNEP and EbA Mainstreaming implemented by GIZ, both funded by the International Climate Initiative (ICI) of the German Environment Ministry, together with the IUCN Global Protected Areas Programme supported through ICI and GEF funding.

PANORAMA documents and promotes inspiring, replicable solutions across a range of conservation and development topics, enabling cross-sectoral learning and inspiration. The online platform currently hosts three thematic portals, and is envisioned to expand continuously with new partners and solutions from further topics. PANORAMA allows practitioners to share their stories, get recognized for successful work, and learn how others have tackled challenges similar to theirs. It encourages reflection on and learning from proven approaches.

During this side event, participants will learn about PANORAMA and its different formats around knowledge sharing, presented by the providers themselves. In a facilitated discussion, participants and solution providers can discuss how challenges are addressed in different regions and contexts, and experience the benefits of such a mutual exchange.

### SIDE EVENT CBD COP 13

#### Programme extracts

- PANORAMA in a nutshell
- Voices of partners and solution providers
- Experiences of thematic hosts
- Solutions exchange

**Friday, 9<sup>th</sup> December, 18:15**

**Universal Building, main floor. Contact group 5**

**Snacks and drinks provided**
